What is 'Best Value Finance' ?

Quite simply it's Johnson Reed's breath of fresh air in the world of technology finance.

Finance subject to status E&O.E.

We have combined the virtues of our equipment with a specialist technology finance company. Working in association with Johnson Reed, Vision Techniques offer a quick and simple method of financing our safety solutions equipment. Unlike traditional banks we are able to fund 100% of your installation.

Making your money work harder for you.

There are often more productive ways to use cash than tying it up in capital expenditure. Vision Techniques' products provide comprehensive cost savings. Best Value Finance will maximise your cash flow by helping you acquire safety & security solutions to save money from your operational budget. For further details refer to the individual products cost benefit analysis document.

- **Fixed monthly, quarterly or annual repayments** - easier financial planning.
- **Immediate access to much needed equipment** - without cash flow restrictions.
- **Independent funding** - will not affect any existing bank or credit relationships.
- **Simple to arrange** - plans can be tailored and agreed quickly and easily.
- **Revenue budget not capital budget** - keeping cashflow intact.
- **Middle management sign off** - no need to go to tender
- **Off balance sheet rental plan with option to acquire title** - continue renting, hand back or transfer to a new vehicle.
