

VT RECORD

VEHICLE CCTV RECORDING SYSTEM

VTRecord

VTRecord

Superfast 3G/4G video streaming version

Watch live footage or review recorded channels with high speed streaming using 3G/4G sim data

Low cost vehicle recording

Choose the right DVR system for your needs at a highly competitive price

Fleet tracking & reporting

VT Record comes with software created to make technically advanced reporting simple

"cover 360° of your vehicle with a 4 camera setup"

"the ability to watch live footage allows fleet managers to track driver/crew performance"

"this system is very useful for protecting businesses against fraudulent claims."

VT Record is a mobile video recording solution engineered to prove liability, provide evidence and prevent false claims, saving you thousands whilst supporting your drivers and staff.

By covering the front, rear and side of your vehicles with IP69 waterproof cameras every angle of your vehicle is recorded to your DVR unit, meaning if any incidents happen around the vehicle you have high definition quality evidence as proof. This means you can protect your drivers from false claims, stop fraudulent 'crash for cash' scams, improve driver training and lower your insurance claims.

360° FOOTAGE, 4G STREAMING AND TELEMATIC DATA - FOR LESS THAN YOU THINK.

HIGH SPECIFICATION, SUPERIOR PERFORMANCE - LOW COST.

SYSTEM FEATURES

Support for 4 or 8 cameras

Improve surveillance with a digital recording system that can support 4 or 8 cameras as standard

Plug & Play hard drive swap out

2.5" hard drives of up to 1TB can be plugged in and instantly replaced as needed

GPS support with module

Monitor your vehicles journey using active GPS data with footage

Monitor driver behaviour

Report on driver performance to reduce vehicle costs and improve driver training

Enhanced tailored software

A simple, easy to use system that gives users quick access to recorded footage with data and telematics

3G/4G enabled video streaming

Watch live footage or review recorded channels with our fast 3G/4G streaming sims for quick easy access
